

ROBOTICS

SCIENCE AND SYSTEMS

July 13-17, 2015 at Sapienza University of Rome, Rome, Italy

General Chair

Lydia E. Kavraki, Rice University

Program Chair

David Hsu, National University of Singapore

Workshop Co-chairs

Hadas Kress-Gazit, Cornell University

Stefanie Tellex, Brown University

Local Arrangements Co-chairs

Giorgio Grisetti, Sapienza University of Rome

Daniele Nardi, Sapienza University of Rome

Short Talks Chair

Dmitry Berenson, Worcester Polytechnic Institute

Publications Chair

Jonas Buchli, ETH Zurich

Publicity Chair

Sethu Vijayakumar, University of Edinburgh

Review Manager

Andras Kupcsik, National University of Singapore

Webmaster

Maurilio Di Cicco, Sapienza University of Rome

Area Chairs

Ron Alterovitz, Univ. North Carolina at Chapel Hill

Kostas Bekris, Rutgers University

Calin Belta, Boston University

Kris Hauser, Duke University

Guy Hoffman, Interdisciplinary Center Herzliya (IDC)

Geoffrey Hollinger, Oregon State University

Danica Kragic, KTH Royal Institute of Technology

Dongjun Lee, Seoul National University

John Leonard, MIT

Jun Morimoto, ATR

Jose Neira, Universidad de Zaragoza

Jan Peters, TU Darmstadt & MPI Intl. Systems

Domenico Prattichizzo, University of Siena

Ian Reid, University of Adelaide

Paolo Robuffo Giordano, CNRS

Julie Shah, MIT

Gabe Sibley, University of Colorado Boulder

Nabil Simaan, Vanderbilt University

A. Frank van der Stappen, Utrecht University

Mark Yim, University of Pennsylvania

Robotics: Science and Systems 2015 will bring together researchers working on algorithmic or mathematical foundations of robotics, robotics applications, and analysis of robotic systems. High quality, original papers are solicited in all areas of robotics. The final program will be the result of a highly selective review process designed to include the best work of its kind in every category. The conference will be single track to allow attendees an opportunity to experience the best research in all areas of robotics.

The program will include invited talks as well as oral and poster presentations of refereed papers. The three-day main session will be followed by two days of workshops and tutorials. Workshop-only registration will also be available. Every effort is being made to keep conference expenses affordable, particularly for student attendees.

Papers are solicited in all areas of robotics, including Distributed Systems, Field Robotics, Human Centered Systems, Human Robot Interaction, Estimation and Learning for Robotic Systems, Manipulation, Mechanisms, Medical Robotics, Micro/Nano Robotics, Mobile Systems and Mobility, Planning and Algorithms, and Robot Perception.

Submission will be evaluated in terms of their technical quality, novelty, significance, and clarity.

Important Dates

Full Paper Submission **January 22, 2015**

Paper Acceptance Notification **April 30, 2015**

Preliminary Workshop Proposal **December 12, 2014**

Final Workshop Proposal **February 6, 2015**

Workshop Acceptance Notification **March 6, 2015**

Early-bird Registration Ends **May 15, 2015**
